

Alain Lamontagne

It's with very heavy hearts that we share the sad news of the passing of one of our best and brightest. Alain Lamontagne was fatally injured in a motor vehicle accident on June 20, 2018. He will be missed.

Born in Ontario, Alain came to the West Coast with a Bachelor of Landscape Architecture from the University of Guelph to follow his dreams and build a career. After spending time in California developing his skills, he joined the dk team in the spring of 2007.

Alain became a BCSLA Intern in the fall of 2010 and continued to develop his skills. In turn, he became a mentor for newer BCSLA Interns, sharing his knowledge and expertise. Alain spent ten years working in our Vancouver office until the spring of 2017, when he and his wife Sarah returned to Ontario to be closer to their families. In October of 2017 he and his wife expanded their family by welcoming their daughter Rosalie into the world. While in Ontario, Alain continued to work remotely for dk, contributing to projects as a consultant while embracing his new role as a father.

Alain was an effective project manager who was valued by the dk team, our clients and those in the industry who had the pleasure of working with him. He was diligent and hardworking with an eye for detail and organization. Alain's skills were an asset to any project, providing a legacy for residents in communities throughout the Lower Mainland and Vancouver Island to enjoy for many years to come.

Alain was involved in many significant and award-winning projects, a few of which are listed below.
